

Separator S7500UT

- Dry nuts
- Shells / kernels

Separator with integrated hopper

- Buffer hopper volume: 0,76 m³.
- Electromagnetic vibrator under hopper with variable flow
- Sorting full walnuts / hollow walnuts: 3 to 4 t/h
- Sorting kernels / shells : 800 kg/h
- Turbine 7,5 kW adjustable speed by electronic variator
- Power supply : 230V mono 0.55 kW
- Turbine power supply: 400V three phase 7.5 kW
- Option : hopper, vibrating plate and stainless steel column
