

Generatori assiali

Ideal for drying towers, these generators, which are quieter than axial generators, allow a sufficiently high pressure to pass through several meters of product

All equipped with electronic temperature control, they can run on propane or natural gas (to be specified when ordering)

	Power	
	Propane At 1.5 bar	Natural gas At 1 bar
T40 Torch	54 kW	47 kW
T80 Torch	108 kW	90 kW
T180 Torch	208 kW	185 kW

Different models:

- Diameter 450
- Diameter 560
- Diameter 630
